## Summary Report

On

### India First Leadership Talk Series

#### (Episode 5)

Almost 2300 questions have been received overall like education policy, questions related to innovation, starts ups, career development and employment, digitization of education etc where he appeared students to ask how the education institute can contribute towards national mission like swatch bhharathabhayan and jalshakthiabhayan.

On other hand he is a poet and wrote 60 books and as an author and he were sharing his experience as being a politician, poet and hard working personality. He gave a statement that without hard work there is no success. He explained about working things in time, if we could not complete our work with in time, the time will leave us and go. As we are in a society we should completely make use of each second, minute, hour and day. As he had been as a politician with all responsibilities and strength he along with his team keep executing with better output to reach target. He explained about the qualities of leadership. Working united will give best results. He was an ex-chief minister of Uttarkand and use to work for 20hrs per day working with various activities like meeting people, writing books, looking after cabinet. Former Prime Minister Atal Bihari Vajpayee was also questioned Pokhriyal sir how it will be possible for him to manage both the politics and as an author. He answered very simple he would have not been as a politician if he is not an author and vice versa. He said that hard work will change our image and future.

He discussed about the education policy of India that to be integrated with the students. He said that education will only make us to sit here on the positions. After 33 years new education policy has been taken in to account, to build up this policy various strategies are considered and gathered information for professors, teachers, scientist, politicians, industries etc. the root for the education system was from nalanda, thakshala were it has been as a leader in the world. As per the new policies implemented by government of India by our Prime Minister respected Narandir Modi was started from villages to city from city to national and international level. The policy is integrated with various like discipline, universe, agriculture, scientific etc. the slogan raise by our former Prime Minister Mr. LalBahadurshastri as jai Jawan jai Kisan and Mr. Atal Bihari Vajpayee he gave slogan as jai Jawan jai Kisan jai Vignan and this was further modified by our present Prime Minister given a slogan as jai Jawan jai Kisan jai Vignan jai Anusandhan. He also explained about how our education system has enhanced through worldwide and the scientist revealed that the computer systems will use Sanskrit as a computer language; this will be a scientific language in future. He discussed about the interesting facts of India like invention of zero, ayurveda which was invented by our scientists. India like country gave freedom to work on any policies, the various international universities have collaborated with India for new innovation and implemented it accordingly. He gave us clear view that the students of our nation are capable for new inventions and the government has opened door for the stakeholders for new ideas and execute it with the help of technical skills.
