Report

On

International Conference on Transformations In Engineering Education (ICTIEE-2021)

On

(8-1-2021 to 10-1-2021)

Submitted by

Mr. Khamruddin Syed, Assoc. Prof, Dept of EEE
Ms. R HimaSagarika, Dept of CSE
Ms. A. Deepika, Dept of ECE
Summary Report of ICTIEE-2021

KG Reddy College of Engineering & Technology encourages the innovative teaching and learning practices through Conferences, summits etc. In this regard we as a part of Center for Engineering Education Development (CEED) initiatives to the ICTIEE (International Conference on Transformations In Engineering Education) -2021 Conference which is held from 8/1/2021 to 10/1/2021 in online mode. The Eighth International Conference on Transformations in Engineering Education (ICTIEE 2021) will CONNECT engineering educators from all over India with leaders from across the world as well as from industry. Participants will be able to SHARE best practices and thereby LEARN to TRANSFORM their own institutional efforts to prepare engineering graduates who can address global challenges as well as targeted initiatives of the Indian government. The faculty members have presented papers in the Conference is attached in the enclosure. 19 Workshops on Transforming Engineering Education by Global experts at ICTIEE 2021 Jan 8-10, 2021 have conducted in 4 Rooms parallelly through Zoom Platform. The Eight International Conference was held for 3 Days A part from the keynotes and sponsor workshops there were paper presentations by Mr. Khamruddin Syed, Dept of EEE on “Responding to COVID-19 and Transitioning to online learning: Evaluation of an institution wide capacity building efforts on Technology-Enhanced Learning”, Ms. R. HimaSagarika, Dept of CSE on “Role of Learning Analytics to Evaluate Formative Assessments: Using a data driven approach to inform changes in teaching practices ” and Ms. A. Deepika , Dept of ECE on “Implementation of ICAP Principles through technology tools: Exploring the alignment between Pedagogy and Technology” the Day-3 of the conference.
