Dr. Lakkireddy Venkateswara Reddy

Dr. Lakkireddy Venkateswara Reddy is a HoD & Professor of the department of CSE and Dean, Faculty & Students Professional Development at the KGREDDY College of Engineering and Technology, Moinabad, Chilkuru, RR(Dist). He has been actively involved in research since 1994. He attained his Ph.D in a record time of Three years from Institute of Technology from Banaras Hindu University. His research areas focus mainly on Agriculture Data Mining, AI and Cloud Security in the field of Engineering. He is famous in Yoga and Therapy for varied group of populations in the society. He has conducted both quantitative (e.g. randomized controlled trials, descriptive quantitative studies) and qualitative (e.g. descriptive qualitative) studies. His research studies involve national and international collaborations.

Dr. Lakkireddy Venkateswara Reddy has received various awards for his academic and research excellence. He was awarded for his contributions as Professor in the Information Technology at the prestigious 2nd ITAP Award in 2018 in Telangana State and VIFA 2019 Award Winner in the year 2019. He has been invited at various conferences and the findings of his research have been presented in international, national, and regional conferences. He has published 65 papers in high impact factor journals both in International as well as National. Till date, Dr. Lakkireddy Venkateswara Reddy have Granted 3 patents, published 5 patents and 3 Text Books. Two Ph. Ds were guided and 1 student is pursuing for his Doctoral Degree.

Department of Computer Science and Engineering

Topic : 4 Ps and It's Significance

Name: Dr.L.V.Reddy,SMIEEE Professor& Dean Dept. of CSE

Objectives and Outcomes of the 4 P's and its Significance as follows:

Objectives:

1. To understand the academic Research and journal papers, intellectual Properties.
2. To understand how to write a papers in academic research on specific area/domain.
3. Learn to implementing new innovative product based learning and ideas to implement a product through intellectual property Rights.

Outcomes:

Faculties will able to

- Intellectual property Rights.
- Academic Research and journal papers
- The 7 best websites for accessing online
- The 6 best Search Engines for academic research journal.

Resource Person:

1. Dr.L.V.Reddy,SMIEEEE Professor& Dcan Dept. of CSE at KG REDDY College of Engineering and Technology.
2. Dr. K. Rohit, Academic Director of KG Reddy College of Engineering and Technology.

Department of Computer Science and Engineering

Summary Report of Expert Lecture

The department of Computer Science & Engineering has conducted the Expert Lecture on “**4P’s and its Significance**” on 29th May, 2021 (Saturday) for all Faculties of KG Reddy College of Engineering & Technology encourages the Expert Lecture in the respect fields to fill the gaps in the Academic research Journal and papers, **Dr. L. V. Reddy**, Department of Computer Science & Engineering has been invited for the Expert Lecture on the topic mentioned. The session started with addressing the Participants and introduction of the guest. Immediately the speaker has taken over the session.

The speaker has discussed about the basic of **Research journal and papers** in the session followed Academics Research 7 best websites for accessing online, Intellectual property Rights. The elaborated session has happened with interactive session in between including activities, random questioning.

Topic addressed in Expert Lecture:

1. The 7 best websites for accessing online research journal and papers are as follows:

- Elsevier
- Academia.edu.
- doaj.org.
- CORE.ac.uk.
- Science Open.
- ERIC (Education Resources Information Center)
Microsoft Academic.

2. The 6 best Search Engines for academic research journal and papers are as follows:

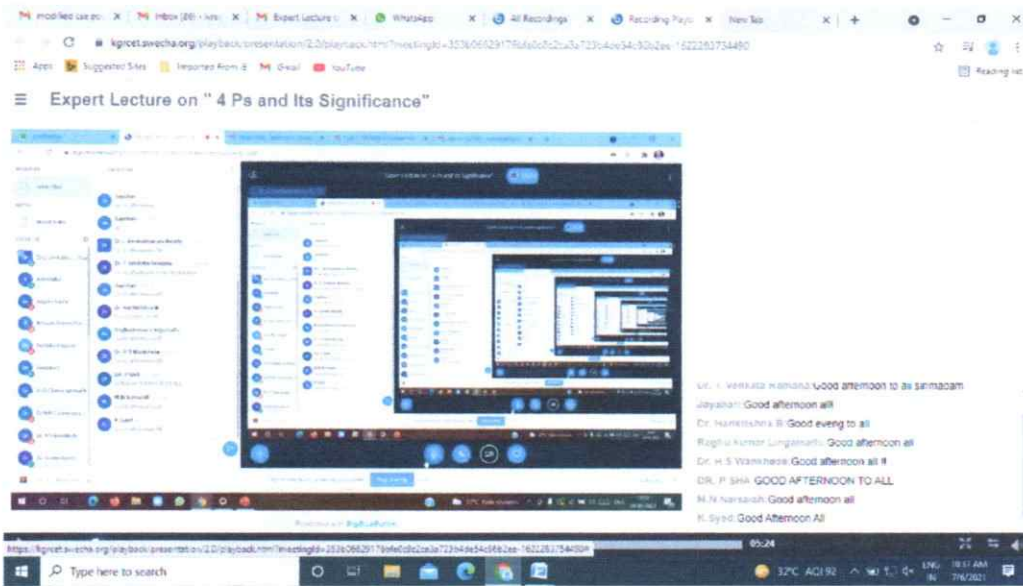

- Academic Info
- Iseek Education

- Virtual LRC
 - ReefSeck
 - Google Scholar
 - Microsoft Academic Search
3. Intellectual property is the product or creation of the mind. Intellectual Properties Rights important things to follow as below:
- Form 1/Form 2:
 - TITLE
 - APPLICANT
 - INVENTOR
 - APPLICATION STATUS: 1. Filing, 2. Published, and 3. Granting

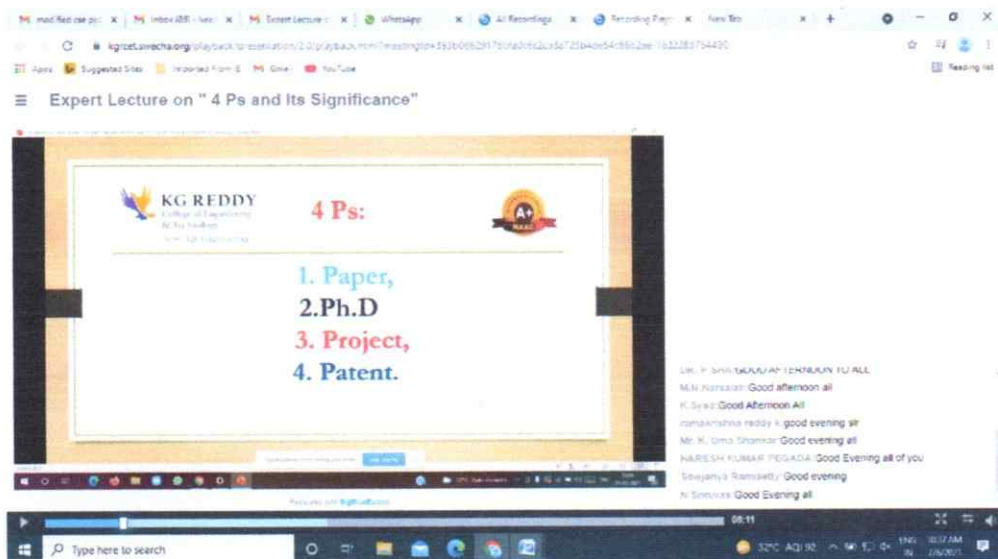

Outcome of the Session:

At the end of the session the Faculties will be able to gain knowledge on academic Research Journal and papers. And also focus on Intellectual Property Rights to implement Product based projects with new innovative ideas.

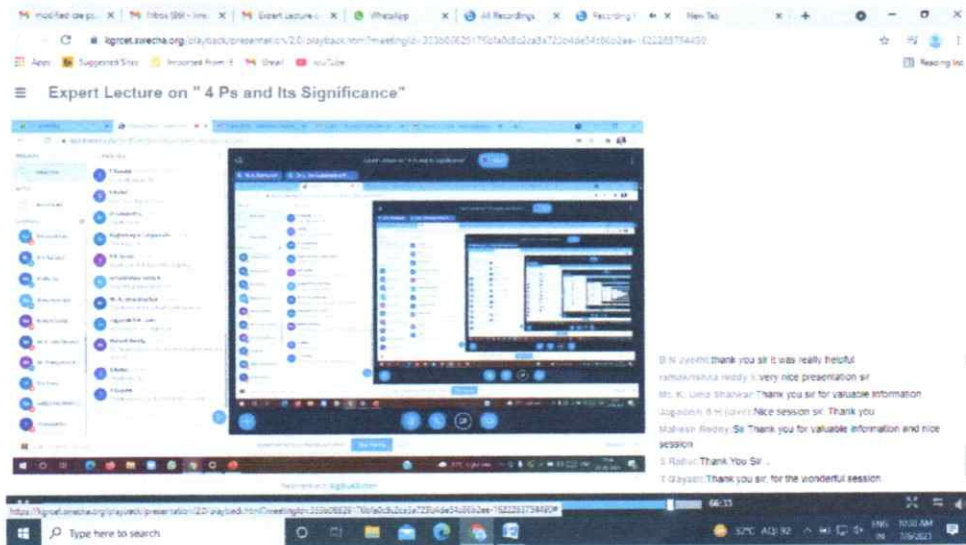

Program photographs:

Session Started by Head of the Department Dr. LV Reddy

Dr. L V REDDY addressing on 4 P's: Academic Research

Dr. L V REDDY addressing on 4P's: Intellectual Property Rights

Faculty Development
Program – Research
Paper Writing**

KG REDDY
College of Engineering
& Technology
Engineering India's Changemakers

Organized by
Centre for Research
Innovation and
Development

**FACULTY
DEVELOPMENT
PROGRAMME (FDP)
ON RESEARCH
PAPER WRITING**

10th May - 14th May, 2021

Organized by CENTRE FOR RESEARCH
INNOVATION & DEVELOPMENT

KG REDDY COLLEGE OF
ENGINEERING & TECHNOLOGY

KG REDDY
College of Engineering
& Technology

BENEFITS OF THIS FDP

By participating in this program with various sessions on writing a research paper, the faculty will learn to write a research paper. The faculty gets the following benefits on attending this FDP

- Makes more skilled in writing research papers
- Helps to integrate more technology onto teaching
- Orients our faculty to KG REDDY College of Engineering & Technology's objective & vision
- Helpful to expand the faculty role
- Helps our faculty members to find right work balance

COURSE CONTENT

- Know about downloading a research paper
- Exclusive selection of research paper to read
- Efficient way to read a research paper
- Reading a research paper repeatedly
- Tips on literature survey
- Effective way of writing a research paper
- A study on citing references and referencing style
- Scholarly way to present a paper in an International conference
- The powerful impact of acknowledging
- Avoid improper borrowing - Plagiarism
- Paper submission with respect to its scope
- Collaborations with researchers / communities

EXPECTED OUTCOME

The attended faculty is expected to

- Write a research paper (conference/Journal) qualitatively
- Know to collaborate with research communities around the globe

INTENDED AUDIENCE

The following audience who are interested in doing research in allied fields of Engineering / Sciences / Management Studies

- All KGR CET teaching faculty

REGISTRATION FEE

**WHAT WILL PARTICIPANTS RECEIVE?
A PARTICIPATING CERTIFICATE**

SESSION PLAN

DAY	SESSION	TIME	DATE	COURSE CONTENT
1	I	03.00 p.m. - 03.30 p.m.	10/05/2021	Inaugural Session
1	II	03.30 p.m. - 04.00 p.m.	10/05/2021	Know about downloading a research paper
1	III	04.00 p.m. - 04.30 p.m.	10/05/2021	Exclusive selection of research paper to read
2	I	03.00 p.m. - 04.00 p.m.	11/05/2021	Efficient way to read a research paper
2	II	04.00 p.m. - 04.30 p.m.	11/05/2021	Reading a research paper repeatedly
3	I	03.00 p.m. - 03.30 p.m.	12/05/2021	Tips on literature survey
3	II	03.30 p.m. - 04.30 p.m.	12/05/2021	Effective way of writing a research paper
4	I	03.00 p.m. - 03.30 p.m.	13/05/2021	A study on citing references and referencing style
4	II	03.30 p.m. - 04.00 p.m.	13/05/2021	Scholarly way to present a paper in an International conference
4	III	04.00 p.m. - 04.30 p.m.	13/05/2021	The powerful impact of acknowledging
5	I	03.00 p.m. - 03.30 p.m.	14/05/2021	Avoid Improper borrowing - Plagiarism
5	II	03.30 p.m. - 04.00 p.m.	14/05/2021	Paper submission with respect to its scope
5	III	04.00 p.m. - 04.30 p.m.	14/05/2021	Collaborations with researchers / communities
5	IV	04.30 p.m. - 05.00 p.m.	14/05/2021	Feedback/Valedictory

Topics to be delivered on Research Writing Process

1. How to download a research paper – Academia, google scholar, RG – Dr. B. Hari Krishna
2. How to read? Dr. B. Hari Krishna
3. Which papers to read? Dr. J. Shanker
4. How to read a research paper many times? Advantages of reading a paper many times - Dr. Manisha
5. How to collect the data? Shanker sir
6. How to write a paper? Dr. Manisha G
7. How to cite references, writing references, referencing style? Dr. Vandana
8. How to present a paper in conference Dr. Pavan
9. How to acknowledge - Dr. MRS Surya Narayana
10. Plagiarism check Dr. Jaya Hari sir
11. Paper submission with respect to its scope. Jaya Hari sir
12. How to collaborate with research communities Dr. MRS Surya Narayana

Title: One Week Faculty Development Program on Writing a Technical Research Paper					
Time : 3.00 pm to 4.00 pm					
S No	Day	Topic Name	Name of the Expert	Duration	Date
1	1	Know about downloading a research paper Contents – <ul style="list-style-type: none"> ✓ With membership – IEEE, Nature, etc ✓ Without membership ✓ Acadamia, Google Scholar, Research Gate. 	Dr.L Jaya Hari	30 min	
2	1	Exclusive Selection of research paper to read Contents – <i>Papers to select based on idea</i> <ul style="list-style-type: none"> ✓ For ECE, EEE, CSE IEEE Transactions, Journals ✓ H&S Nature ✓ CE, ME – ✓ MBA - 	Dr. Manisha G	30 min	
3	2	Efficient Way to Read a research paper Contents – <ul style="list-style-type: none"> ✓ Improving reading skills 	Dr. Hari Krishna	60 min

FDP on "Research Paper Writing"

Resource Persons Details and their profile

1. Dr. L. Jaya Hari, Professor and Dean - Academics, Dept of Mechanical Engineering

Dr. L. Jayahari, graduated from GRIET Hyderabad affiliated to JNTU University in Mechanical Engineering Department in 2001. Dr. Jayahari Pursued his Masters degree from Blekinge Institute of Technology (BTH), Karlskrona, SWEDEN with specialization "Structural Mechanics" in 2005. He has doctorate in Philosophy from Jawaharlal Nehru Technological University, Hyderabad with Specialization "Sheet metal forming" in 2015. He has more than 20 research publications in international and national journals and conferences. He started his career as Assistant professor in 2005 at GRIET, Hyderabad, grown up to the level of professor by 2015 and served the Institute till March, 2021. Dr. L. Jayahari worked as Head of the Mechanical Engineering Department from 2015 to 2018 and Dean of student affairs from 2018 to 2021. Dr. Jayahari attended 27th international Symposium on Plasticity and Its Current Applications, Keauhou Bay, Hawaii, USA, January 3-9, 2016. Under his leadership he has successful in NBA accreditation for three Programmes (MTech(DFM)(2015) and B.Tech(2016) and MTech(TE)(2017) in Mechanical Engineering department in GRIET. As team lead Dr. Jayahari worked as NAAC Criteria III Coordinator at institute level to achieve highest grade NAAC A++(2021) in GRIET. On 30th March he resigned from GRIET and joined in KGR CET as Dean Academics and Professor of Mechanical Engineering department from 31st March 2021.

2. Dr. MRS Surya Narayana Reddy, Associate Professor, Dept of MBA

Dr. Reddy got a PhD degree from JNTU Anathapur Andhra Pradesh. He has 13 years of experience in teaching management courses at the graduation and post-graduation level. Dr. Reddy is currently holding the position as Dean-Admissions & Brand Building at KG Reddy College of Engineering and Technology, Hyderabad. He has to his credit six articles published in national and international journals and presented fourteen papers in various conferences at the national and international level. He received the Best Paper Award at the International Conference held at Annamalai University during the year of 2011. He is the chief technical advisor for the Indian Journal of Advances in Chemical Sciences (ISSN 2330-0898) which is published by Yogi Vemana University. Dr. Reddy worked as a training officer for around seven years from 2012 to 2019 at Sree Vidyanikethan Educational Institutions Tirupati, Andhra Pradesh. Dr. Reddy worked as Dean- Entrepreneurial Leadership & Brand Building at the Institute of aeronautical Engineer from the year of 2020 to 2021 February.

He has served as an Executive member for the Indian Society for Training and Development for Tirupati Chapter for the year of 2016 and 2017. He delivered extension lectures at UGC-Academic Staff College, Sri Venkateswara University and served as a resource person for several

KG REDDY

College of Engineering
& Technology

Engineering India's Tomorrow

other Faculty development programs on entrepreneurship sponsored by Government agencies. He has attended several FDP's organized by institutions like IITs, IIM, and IISC.

3. Dr. Manisha G, Associate Professor, Dept of Electronics and Communication Engineering

Manisha Guduri (Member of IEEE since 2014) received the B.Tech degree in electronics and communications engineering from JNTUH, Telangana India, in 2009 and the M.Tech degree in VLSI system design from JNTUH, Telangana India, in 2012. She received Ph.D. degree in electronics and communications engineering from Birla Institute of Technology (BIT), Mesra (Deemed University), Ranchi, India in July 2018.

She is the author or coauthor of more than 31 research papers in reputed journals (11, i.e., 3 in the Microsystem Technologies-Springer, 2-Elsevier, 1-JSTS and 4 in SCOPUS indexed journals), book chapter (6), and International conferences (15). Her research interests include VLSI/CAD design for classical CMOS, non-classical CMOS and non-CMOS (non-Silicon) technologies [which center around the emerging nanoelectronics and spintronics devices like HEMT (high electron mobility transistor), SiC MOSFET, Organic FET, FinFET (Fin-Shaped Field Effect Transistor), CNFET (Carbon Nanotube Field Effect Transistor) and STT (spin transfer torque)-based MTJ (magnetic tunnel junction)], SET (Single Electron Transistor), Multivalued Logic, SRAM (Static random Access Memory), RRAM (resistive random access memory), PCRAM (Phase Change Random Access Memory), STT-MTJ based MRAM (magnetic random access memory), magnetic logic circuits, robust design of semiconductor memory, power- and variability-aware design, design of ultralow-power nanoscale circuits for portable/wearable/energy-harvesting applications. She is reviewer of IEEE TVLSI, Microelectronics Journal, IET digital circuits, etc. She received best paper award in IEEE conference ICICT-2015. She is a member of IEEE, USA. She is also currently member of various international bodies / societies such as IEEE Young Professionals, IEEE Women in Technology, etc. She has delivered invited talk/tutorial speech/expert talk in various International Conference /technical programs. She has organized several international conferences and several workshops. She visited 2 international countries – USA and UAE.

4. Dr. Vandana, Associate Professor, Dept of Electronics and Communication Engineering

Dr. Vandana completed her Ph.D. (Full-time scholar) from the School of Electronics, from Kalinga Institute of Industrial Technology, Bhubaneswar, India, and completed her Master's degree from Pondicherry Central University, India. Currently, she is working as full-time faculty in DECE at KG Reddy College of Engineering and Technology, Hyderabad. Her area of interest includes design analysis of semiconductor devices, MOS device modeling, Analog & Digital Circuits, Low Power VLSI design, and Analytical device modeling. She published various research articles in (Scopus index and SCI) reputed conferences and journals (VDAT Symposium, WoS, Elsevier, Springer, IEEE conference Proceedings etc). She is a member in IEEE and serving as a reviewer in UGC Journal

5. Dr. T V V Pavan Kumar, Associate Professor, Dept of Electrical and Electronics Engineering

Completed B.Tech in Electrical and Electronics Engineering from Dr Paul Raj Engineering College, Bhadrachalam in 2003. Completed M.Tech in High Voltage Engineering from College of Engineering, JNTU Kakinada. Completed Ph.D in Electrical engineering from Shri Venkateshwara University.

Has Total Teaching Experience of 15 years. Has held various Positions like Head of the Department of Electrical and Electronics Engineering and is currently Associate professor of EEE & Controller of Examination. Has more than 20 publications in UGC, SCOPUS and Web of Science. Has presented papers in various national and International conferences. Is Reviewers of Journal (IJCRT); Reviewers of Journal (IJEPE); Editorial Board member of VSRD INTERNATIONAL JOURNAL International Advisory Board member of International conference. Member of AMIEI, IAENG, SDIWC.

6. Dr. Hari Krishna, Associate Professor, Dept of Computer Science and Engineering

Dr. Harikrishna Bommala is an Associate Professor in the stream of Computer Science & Engineering, and Core Committee Member of CRID at K.G Reddy College of Engineering & Technology, Moinabad, Hyderabad, and Telangana, India. He received Full Time Ph.D in the stream of Computer Science & Engineering at Yogi Vemana University Kadapa, Andhra Pradesh, India. He completed Master in Technology at Acharya Nagarjuna University, Guntur, Andhra Pradesh, India through GATE, and Bachelor in Technology at JNTU Kakinada, Andhra Pradesh, India. He is Former Lecturer and In-Charge coordinator of QEEE at JNTUA College of Engineering, Pulivendula, and Andhra Pradesh, India. And he also worked as an Assistant Professor in A1 Global Institute of Engineering and Technology, Markapur, Andhra Pradesh, India. He qualified three times GATE.

He received Best QEEE (Quality Enhancement in Engineering Education) In-Charge award announced by MHRD and IIT- Chennai in the years of 2014-2015, and 2015-2016. He has been invited at various conferences and the findings of his research have been presented in national, regional and international conferences. Till date, Dr. Harikrishna Bommala published 4 Text Books. He published in 38 International Journals and Conference, and in five National Journals and Conference. He is a member of SWIDC, ISTE, UACEE, IAENG, IJCSE, IJCSA and IT HISTORY

7. Dr. J. Shanker, Associate Professor, Dept of Humanities & Science

I am Dr. Jada Shanker, Assistant professor of physics, KG Reddy College of engineering and technology, Hyderabad. I have one (1) year teaching and eight (8) years research experience. My major research areas are multiferroic perovskite materials, thin films, and glass materials. I have published nine peer reviewed papers in international SCI journals. I have presented 25 papers in international conferences; also I have participated in 5 national workshops, 7 FDPs, 1 FIP, and 1 STTP programs. I am a Journal referee for Journal of alloys and compounds

Inaugural Session

KG REDDY
College of Engineering
& Technology
New Age Engineers

KG Reddy College of Engineering and Technology welcomes the participants

**for
Faculty Development Program**

**on
“Research Paper Writing”
10 - 14 May 2021**

Inaugural Session

Dr. Rohit Kandakatla

**Director - Strategy, Operations, and Human
Resource Development, KGRCET, Hyderabad**

Director's Profile

Dr. Rohit Kandakatla has completed his Ph.D. in Engineering Education from Purdue University, USA and is currently serving as the Director for Strategy, Operations, and Human Resource Development at KG Reddy College of Engineering and Technology. He also has an adjunct faculty appointment with the Center for Engineering Education Research at KLE Technological University. He completed his Bachelors of Engineering in Electronics and Communication from Manipal Institute of Technology and Masters in Embedded Systems from Jawaharlal Nehru Technological University Hyderabad. His research interests include education policy, faculty development, understanding organizational development in higher education, and integration of technology and entrepreneurship in engineering education. He was awarded Young Engineering Educator Scholarship by National Science Foundation (NSF), IUCEE Young Leader Award for the year 2015, and IGIP SPEED Young Scientist Award for the year 2014. He previously served as the President of the Student Platform for Engineering Education Development (SPEED) and the Vice-President for Student Engagement of the International Federation for Engineering Education Societies (IFEES) where he has led many student-based initiatives to help solve engineering education issues at the local and global level.

Tips on Literature Survey

by
Dr. Jada Sanjeev
 Associate Professor of Physics
 Department of Applied Science
 K. J. Somaiya Institute of Engineering and Information Technology, Hyderabad

Hyderabad, June 11, 2021

Literature survey

To choose research topic

```

    graph TD
        A[To choose research topic] --> B[To write a research paper/  
Project proposal/  
Book chapter]
    
```

Hyderabad, June 11, 2021

To choose research topic

- Availability of research facilities/resources
- Availability of time
- Your interested areas
- Quantitative or qualitative or mixed methodology
- Current trending areas
- Application/Society need
- Availability of literature

Hyderabad, June 11, 2021

To write a research paper/Project proposal/ Book chapter

- > Keywords of the paper
- > Compound/material name
- > Sample preparation method
- > Property name
- > Characterization name
- > Measurement name
- > Area of research
- > Abstract
- > Conclusion
- > Title of the paper

Hyderabad, June 11, 2021

Reference paper/book/thesis should be related to your work

Key words

- Ex: Glass material (your data) → Glass material (reference data)
- Ex: perovskite material (your data) → perovskite material (reference data)
- Ex: cloud computing (your data) → cloud computing (reference data)

Hyderabad, June 11, 2021

Reference paper/book/thesis should be related to your work

Key words

- Ex: impedance analysis of perovskite (your data) → impedance analysis of perovskite (reference data)
- Ex: Conductivity of perovskite (NFTO3) (your data) → Conductivity of perovskite (RTD3) (reference data) where R=Na/Kd/Sm/Pb/Fe, etc. R=rare earth element
- T=Cr/Fe/Co/Ni/Mn, etc. T=transition metal element

Hyderabad, June 11, 2021

Follow the reference of the reference paper

- ❖ Reference paper/book/thesis should be recently published but not more than 3 years old
- ❖ Reference paper/book/thesis to be collected from top 1000 universities i.e. Times Higher Education World University rankings
- Ex: Oxford university, University of Hyderabad, Osmania University, DMRL, Hyderabad, ARCI Hyderabad, IICT Hyderabad, IIT madras, BARC Mumbai, IIT Hyderabad, BHU, IIT Kharagpur, IIT Kanpur, etc.

Hyderabad, June 11, 2021

Literature Source from publisher domain

- > IEEE Xplore (<https://ieeexplore.ieee.org/Xplore/home.jsp>)

Hyderabad, June 11, 2021

Literature Source from publisher domain

- > Springer (<https://www.springer.com/>)
- > Master Journal (SCL, SSCI, AHCI) list in UGC CARE (<https://ugccare.unipune.ac.in/Apps/!User/Web/CA/RELAX>)
- > National digital library of India (<https://ndil.in/ggoc.in/>)
- > Magazines
- > Internet source like Wikipedia

Hyderabad, June 11, 2021

Literature Source from social media domain

- > Google scholar
- > Research Gate
- > Academia (<https://www.academia.edu/>)
- > ORCID (Open Researcher and Contributor ID)
- > Pubboos
- > LinkedIn
- > Times higher education world university rankings (<https://www.timeshighereducation.com/>)

Printed: June 11, 2021 The on University Library - On Job Printer

Quality peer reviewed journals Publishers

- > NATURE
- > IEEE
- > ELSEVIER
- > SPRINGER
- > WILEY
- > TAYLOR & FRANCIS
- > IOP PUBLISHING LTD.
- > OXFORD UNIV PRESS
- > CAMBRIDGE UNIV PRESS
- > AMER CHEMICAL SOC
- > SAGE PUBLICATIONS
- > WORLD SCIENTIFIC PUBL CO PTE LTD., etc

Printed: June 21, 2021 The on University Library - On Job Printer

Quality peer reviewed master journals list (SCISSI/AHCI)

- > Science Citation Indexed (SCI) journal (or)
- > Social Science Citation Indexed (SSCI) journal (or)
- > Arts & Humanities Citation Indexed (AHCI) journal

❖ UGC CARE journals list

> All Master Journals List (SCISSI/AHCI) will be in UGC CARE journal list

> But All UGC CARE journals list can not be in Master Journals List (SCISSI/AHCI) because still many fake journal have listed in UGC CARE

Printed: June 21, 2021 The on University Library - On Job Printer

Hands on Experience on Literature review

- > Paper reading tips
- > How to do literature survey from reference paper
- > How to write reference in the paper
- > How do we know year of paper publication (consider up to 3years old papers)
- > Literature survey from various sources with using keywords (Chose only above two (2) impact factor journals)
- > How to verify the collected papers with Master Journals list (SCISSI/AHCI) in UCC CARE list
- > How to know abstracting and indexing with in journal

Printed: June 21, 2021 The on University Library - On Job Printer

Hands on Experience on social media

- > How to verify the experience of author in cited work from their social media (he should publish minimum five(5) papers in master journals (SCISSI/AHCI))
- > How to verify Research ranking of affiliation of first or corresponding author of citing/reference paper (consider top 1000 times higher education world university rankings)
- > How to download research paper

Printed: June 21, 2021 The on University Library - On Job Printer

?

Ask me your questions/doubts on this topic

Also give your suggestions & feedback

Printed: June 21, 2021 The on University Library - On Job Printer

Wishes Kind Regards

Overview of Research Paper Writing

What should a research paper do?

1. Share the knowledge with other researchers
2. Show how your study fits into current science.
3. Inform the public about important scientific activities.
4. Explain clearly and concisely the content of your study, including relevant literature (Introduction), the methods used for research and analysis (Methods), the findings of your study (Results), and the implications for these results and further research that might be needed (Discussion and Conclusions).

Overview of Research Paper Writing

What are the most important factors to consider when writing a research paper?

- Novelty
- Timeliness
- Significance

Quality writing in a research paper

What are the most important factors to consider when writing a research paper?

Coherence

- All of the parts of your paper should fit together in an order that makes sense.
- Include all necessary information in each section needed to understand the other sections.
- Do not repeat information unless it is necessary.
- Ensure that your sentences are grammatically and logically coherent.

Quality writing in a research paper

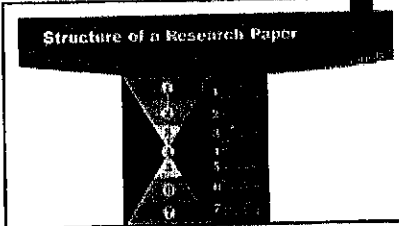

What care is and important factors to consider when writing a research paper?

Clarity

- Clarity is related to coherence, organization, and relevance. It means ensuring that each paragraph and sentence in your paper is natural and easy to read and that critical parts are prominent, phrasing, and style are key to writing a paper that is readable and comprehensible to both experts and possibly non-experts, depending on your target audience.
- Perhaps the most important rule is to conform to the formatting guidelines and other key conventions of the journal to which you are submitting. Check the "INSTRUCTIONS FOR AUTHORS" section of the journal or conference, or if the paper is for a class, ensure that you are using the proper formatting requirements.

Structure of a Research Paper

Introduction Section

What does it do?

- Discusses the problem to be solved (purpose statement)
- Describes where your research fits into the current related background and context
- Uses primary literature when citations and summarizes the current understanding of the problem ("literature review")

Introduction Section

Where do you write it?

- Write it last—after the introduction and before the title and abstract

Methods Section

What does it do?

Tells how you did the study—what materials and methods of research and analysis were used.

When do you write it?

First section you write—after preparing your figures and tables

Results Section

What does it do?

Explains the important findings of your study that help to answer your research question or hypothesis and addresses your purpose statement.

When do you write it?

After the Methods and before the Discussion/Conclusion

Discussion/Conclusion Section

What does it do?

- Explains what your findings mean and what the implications and importance are (add to your specific area of research and in a broader context, i.e., in the wider field or in society)
- Summarizes findings in your study and discusses possible future research that is needed to answer your research question more clearly and address clearly defined questions.

When do you write it?

- After the Results Section and before the Introduction

Composing Your Paper Sections

- You should always go back through your paper after one section is finished and correct or change another part, but by composing in this order you will be sure to include all of the important information.
- Note that the **Methods** and **Results** sections are written first.
- The reason for this is because you will not be changing or adding to these sections after you have analyzed your research—they represent the core data of your study.

Step 1: Prepare the figures and tables

- Most likely, your research paper will use some figures, tables, or other graphics—they are also core data because they are usually numbers representing your findings and methods used.
- We won't go into the details of how to prepare these here, but in the **RESULTS** section we will go over how to write captions for the figures based on the data and research questions.

Priorities in selecting a journal to read

- Impact factor
- International coverage
- Publication Speed
- Open Access
- Reputation
- Archives

Exclusive Selection of Research paper - H&S

- Environmental Health and Safety
- Nature - 42.775 Impact factor
- Science - 41.766
- DOI: www.elsevier.com/locate/ehs

Conclusion

Exclusive Selection of Research paper - ECE / EEE / CSE

- IEEE Transactions / Journals / Magazines
- Springer
- Elsevier
- Taylor & Francis

Exclusive Selection of Research paper

Hands-on Session

Thank You

We would again like to extend thanks to reading all 5000 papers in any time.

Exclusive Selection of Research paper - CE / ME

- Science direct
- Springer
- Elsevier
- Taylor & Francis

Assignment

**Read 50 - 100 research papers
In your area of Interest**

Step 1: Prepare the figures and tables

- For a detailed explanation of preparing and formatting figures, check out these sites (every journal will have their own formatting guidelines):
 - [Statview Online Research Resources](#)
 - [ACSERL Digital Library \(AMA, CMAA, and AMA publications for reference\)](#)

Step 2: Write the Methods

The Methods section should:

- Describe how an experiment was done.
- Give a rationale for why specific experimental procedures were chosen.
- Describe what was done to answer the research question and how it was done.
- Explain how results were analyzed.

Organization of Methods

- Write the Methods section in the order to ensure proper organization and make it easier for readers to understand how your study was carried out:
 - Description of materials used, including size and sample
 - Explanation of how materials were prepared
 - Explanation of how measurements were made and calculations performed
 - Explanation of statistical methods to analyze data

Tips for the Methods Section

- Organize descriptions of preparations, measurements, and protocol chronologically.
- List the Methods in the same order as they will appear in the Results section.
- Material should be organized by topic from most to least important.
- Headings can be used to separate different results; paragraphs are often used instead.

Step 3: Write the Results

The Results section should include:

- Findings presented in the same order as in the Methods section
- Data presented in tables, charts, graphs, and other figures (placed among research text or on a separate page)
- Reports on data collection, recruitment, and/or participants
- Data that corresponds to the central research question(s)
- Secondary findings (secondary outcomes, subgroup analyses, etc.)

Organization of Results

Write the Results in the same order as you wrote your Methods. Use the first method of writing the results to address specific research questions presented in the figures. Within each research question, present the type of data that addresses that research question.

Sample research question asked in a survey:

"What do hospital patients over age 65 think about postoperative care?"
Present this answer as a statement based on the data:

"Hospital patients over the age of 65 were 80% more likely to report negative experiences after postoperative care (p=0.02) and (p= .01)"

Organization of Results

Elaborate on this finding with secondary information included in the same paragraph:

"The most common negative issues reported were difficulties by nurses, lack of proper medicine and a physician's waiting period for personal issues (70-75, 80-85), and (20-25) see Fig. 31"

Caption your figures with the same method, using the data and research question to create phrases that give context to the data:

Figure 3: ANOVA for postoperative care in patients over the age of 65."

Grammar Guidelines for Results

When referencing figures, use the present tense; when discussing events of the experiment itself, use past tense. Positive or active verbs are generally acceptable—but consistency is most important. (Read articles from target journal).

Cite the figure or table every time you reference it, just as you would another text.

Dos and Don'ts for Results

- Don't your results to only those that address your research question; return to the Results section later after you have completed the Introduction and remove less relevant information.
- Indicate the statistical tests used with all relevant parameters. E.g., mean and standard deviation (SD): 40% (23) median and interpercentile range: 7 years (4.5 to 8.5 years).

Do's and Don'ts for Results

- Use mean and standard deviation to report normally distributed data.
- Use median and interquartile range to report skewed data.
- For means, use two significant digits unless more precision is necessary (i.e., not 2.673864).
- Never use percentages for very small samples. E.g., "one out of four" should not be replaced by 25%.

Step 4: Write the Discussion/Conclusion

- This section responds to the question "What do the results mean?" This section is easy to write, but difficult to write well. It requires more than a simple summary—you have to interpret and put your data in the journal and researcher, explaining just how important your findings are.
- In fact, many manuscripts are rejected because the Discussion section is weak.
- The Discussion and Conclusion are often considered to be part of the same section, but the Conclusion is sometimes considered a separate section.
- At any rate, the Conclusion will be a very short and clear justification of your work or suggestion for future studies.

Step 4: Write the Discussion/Conclusion

in the Discussion section you should:

- Bridge your study—do honest about the effectiveness of your design, suggest modifications and improvement.
- Answer the question: "Did your study contribute to knowledge in the field or not?"
- Discuss the impact of this research on related research within the domain.

Pre-writing Questions to Answer for the Discussion

- How do these results relate to the original question or objectives outlined in the Introduction section?
- Do the data support your hypothesis?
- Are your results consistent with what other investigators have reported?
- Discuss weaknesses and discrepancies. If your results were unexpected, try to explain why.
- Is there another way to interpret your results?
- What further research would be necessary to answer the question raised by your results?

Pre-writing Questions to Answer for the Discussion

Organization of Discussion

- The Discussion section is more open than the Results and Methods section, but you should always focus first on what is MOST important and then move to what is less important to your research problem. Organize the analysis of results by paragraph and do not combine unrelated concepts in one paragraph.

Pre-writing Questions to Answer for the Discussion

Organization of Discussion

- The first paragraph should summarize the process, the results, and the overall purpose of this study.
- The second paragraph should answer questions about the limitations and potential flaws or shortcomings of this study (e.g., the "failures to reveal clear relationships between complex or groups"). Assess which of the results are most useful in answering the research question.

Pre-writing Questions to Answer for the Discussion

Organization of Discussion

- The third paragraph should focus on the discussion of the study and highlight which method or approach yielded the best results or those most clearly hypothesized. You DO also compare results of different methods and discuss which was more useful and why.
- In subsequent paragraphs, discuss the implications for this research and compare it to the results of other studies. This is the other section (in addition to the Introduction) where you can cite other studies to show how your study compares.

Pre-writing Questions to Answer for the Discussion

Conclusions

- The Conclusion offers you a chance to briefly show how your work advances the field from the present state of knowledge. It adds a sort of commentary point at the end of your paper and makes it more memorable to read.
- Add a justification for your work here as well as limitations and weaknesses and other implications, as well as suggest future developments and point out any work that is currently ongoing. Do not simply repeat the Introduction or abstract here—instead the studies or questions raised in those sections.

Pre-writing Questions to Answer for the Discussion

Do's and Don'ts for Discussion/Conclusion

- Don't be too broad about the impact of this research—set your boundaries.
- Don't include new terms or ideas in this section—they should be presented in the Introduction.
- Use specific expressions (instead of "highly significant" write "p < 0.01") instead of "it is better than" write "16.7% less", instead of "highly significant" write "p < 0.001".

Step 5: Write the Introduction

- > The **introduction** might be the most important section of the body of your paper—it comes first and introduces what you will be doing, telling readers why your work is important.

A good introduction should:

- > Establish the context of the work
- > State the purpose of the work in the form of a hypothesis, question, or problem investigated
- > Give time and rationale for your approach

Pre-writing questions to answer for the Introduction

- > What is the problem to be solved? (background and problem)
- > What do we know about this problem? (literature)
- > Are there any existing solutions? (literature)
- > What are the limitations or gaps in our knowledge of existing solutions?
- > What do you hope to achieve with this study? (purpose/statement of purpose)

Organization of the Introduction

- > Background information
- > Motivation
- > Key primary literature
- > Hypothesis/research problem investigated
- > Approaches and rationale

Organization of the Introduction

- > Improving Quality of Writing
- > In order to write an effective research paper, authors need to know what areas of their writing to improve, and this includes avoiding grammar and style errors.
- > **Checklist of Past and Present Tense**

Thank You
FOR YOUR ATTENTION

Remember again to be most careful on reading research papers every time

Ways to Collaborate

- Research Funding
- Bilateral / Multi Lateral Programs
- Paper Publications

Center for Research Innovation & Development

Reading a Research Paper Many Times

- Objectives
- CRID - Goal 2
- Advantages in reading a paper many times

Today's plan of the session

- > Objective
- > CRID - Goal 2
- > Advantages in reading a paper many times

Objective of this session

Importance of reading a paper many times
 Importance of reading a paper many times

Objective

Ultimate goal is to publish research papers

NAAC & NBA
 Personel Growth

NIRF / QS Ranking

CRID - Goal

To support faculty and students for publishing research papers through assistance in writing and reviewing papers prior to submission to conferences and peer reviewed journals.

- Number of papers published in *Research Indexed Journals* (UG students, Faculty)
- Number of papers published in *SCI/SCIE/SCOPUS* Journals.
- Number of papers published in *Research Indexed Journals*.

Key Performance Indicators - Target for 2021

Number of papers published in Research Indexed Journals (UG students, Faculty)

Number of papers published in SCI/SCIE/SCOPUS Journals.

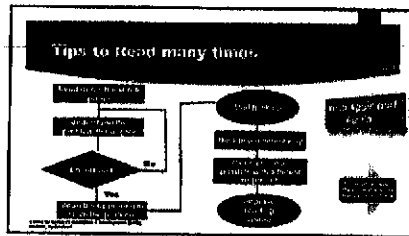

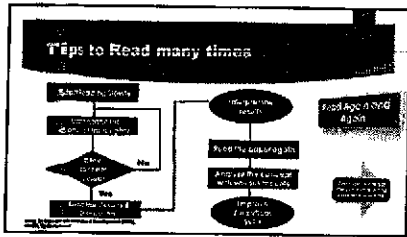

Number of papers published in Research Indexed Journals.

Why to Read Papers many times

Why to Read Papers many times

Advantages of reading a paper many times

- Increases Reading speed
- Improves Analyzing capability
- Increases Understanding skills
- Increases Vocabulary

Assignment

Read one research paper 50 - 100 times in your area of interest

Conclusion

Final Target

Publish a qualitative research paper

Thank You

AG REEDS

We meet again in the next section on the next part of writing a research paper

Feedback Form

Overall, how do you rate the program you attended in terms of usefulness and effectiveness? (On a scale of 1 to 5, 1 being lowest)
