After that college has exchange MoU with Idealabs. In this MoU participation CSE HoD sir, Dean Placement sir has collect MoU from Idealabs.

Tech Mahindra, GMR Group and Idealabs bring together a combination of technical expertise,

domain expertise and an unparalleled track record of delivering Emerging TechSkills through
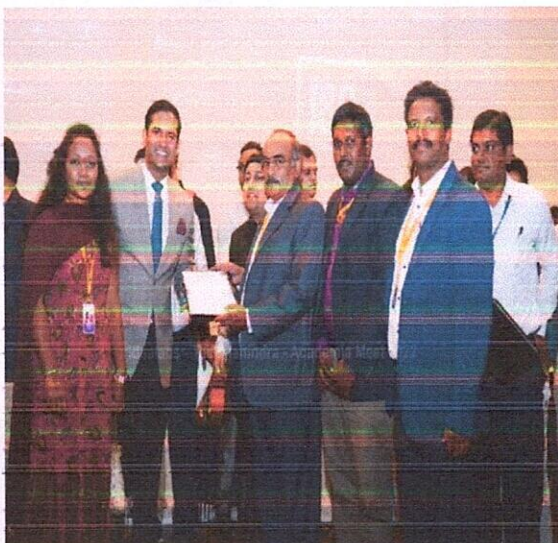

leadership.

Formed India's largest Academic Alliance on cutting edge technologies with more

than 50 engineering colleges across India.

Currently setting up Centre of Excellence (CoE) in areas like Digital Agriculture, Blockchain, Cyber

Security with our Global Partners like Microsoft, ICRISAT etc.

Exchange MoU with Idealabs

Student's with Tech Mahindra Team

Objectives:

• Understand the function of Block chains as a method of securing distributed ledgers, how

Consensus on their contents is achieved, and the new applications that they enable.

• Describes the technological underpinnings of block chain operations as distributed data Structures

and decision-making systems, their functionality and different architecture types.

Outcomes:

• Understand the structure of a block chain and why/when it is better than a simple Distributed database.

• Analyze the incentive structure in a block chain-based system and critically assess its Functions,

benefits and vulnerabilities.

• Our students discussed their questions that are related to the technologies and got insights about the

career path in the particular technologies.

Program Overview:

The Blockchain Certified Programme by Idealabs, co-certified by Tech Mahindra and GMR group is driven by Industry practitioners and leaders in the blockchain ecosystem.

Its modular in nature to allow you to hone your skills with a use case driven approach. Our network across various Industry segments gives you access to domain experts providing real case studies.

You can now choose from a range of options that's its your requirement best. Talk to our programme advisor or subject matter expert.,

Dear Sir,

Greetings!
You would recall the International Blockchain Congress organized by us in 2018. It was reported as the largest conference on blockchain in South Asia.
Here are the glimpses of the event : https://youtu.be/veD-KbVYsDc

We are delighted to inform you that the brand is being revived and this time the agenda is for five years.
The agenda includes offering certification courses on blockchain & web3.0 by our international partners like Polkadot and others, multiple international hackathons (online and offline), startup pitch competitions and government led conferences. The students will get an opportunity to meet and network with mentors and developer community from across the world.
The Best Part - The complete offering is absolutely free to the students (no hidden charges!)

As part of this vision, we are inviting select engineering colleges to sign a MoU (non-commercial). The MoU copy is being sent to you for your e-signature (DocuSIgn) from the email ilftv.saba@gmail.com. Alternatively, a copy of the MoU is attached with this mail. You may download, sign and send it back.
We are also doing a launch event on Friday 5th August at Danube Auditorium, Tech Mahindra, Hitec City, Hyderabad.
We request your presence along with other academic leaders/management representatives from your college and 5 student representatives (nominated by you) to attend the event.
Kindly fill the form for registration for the event here : https://tinyurl.com/meet2022-23
We will revert back with a detailed programme agenda and security cleared gatepass for offline delegates and zoom link for online delegates.
Kindly note : Prior Registration is mandatory.
